There's something about a fantastic — and eye-catching — image that begets wanderlust. Whether it's the lighting, the angle or just the sheer luxe factor, social media influences and inspires travelers. From a decadent breakfast buffet to a bed under the stars, these haute spots boast signature shots that will have you racking up the double taps while making memories.

The Shot: The Pools. From its setting on a secluded beachfront on St. Kitts' quiet southeast peninsula, the first Park Hyatt in the Caribbean features uninterrupted views all the way out to sister island, Nevis, from both of its beautiful pools. Ringed by cushy day beds, the main Lagoon Pool seems to melt into the beach and the sea. Honeymooners may prefer the dramatic setting of the higher, adults-only Rampart pool, which is dotted with stone walls reminiscent of the island's historic forts (room rates start at \$890 a night).
